2 The Job Advertisement

The Job Advertisement was disseminated through the following channels, explicitly mentioned in the proposal:

| | |
|--------------------------------------|------------------------|
| <i>Faculty of Medicine in Pilsen</i> | - printscreen enclosed |
| <i>Biomedical Center</i> | - printscreen enclosed |
| <i>Charles University</i> | - printscreen enclosed |
| <i>Euraxess</i> | - printscreen enclosed |
| <i>LinkedIn</i> | - printscreen enclosed |
| <i>ResearchGate</i> | - printscreen enclosed |

The Job Advertisement was also disseminated through the following professional association, chosen out of the mentioned target locations in the proposal as a most effective way of dissemination (based on a consultation with the leading oncology specialist in our region):

European Association for Cancer Research EACR - printscreen enclosed

Approval and publishing process:

The draft of the Job Advertisement, included in the project proposal, was approved by the members of the Project board on its meeting held on 18th July 2019. After this approval, the Job Advertisement was published on 1st August 2019. The deadline for applications (5th September 2019) was determined based on the internal regulation "Recruitment Procedure Code" from 14th December 2016, which sets the required length of vacancy advertising. The stated minimum publication days is 30.

3 The Selection Committee

Based on the decision of the Dean and in accordance with the Code for selection procedure of Charles University, article 3, paragraph 1., the following members of the ERA Chair holder Selection Committee were appointed on 5th September 2019:

prof. MUDr. Milena Králíčková, Ph.D.

Vice-Rector for Education Charles University

WP5 Leader

Ing. Marie Klečková

The Chief Administrative Officer of FMP Dean's office

WP1 Leader

prof. MUDr. Milan Štengl, Ph.D.

Project Coordinator

Scientific Director of the Biomedical Center

Vice-Dean for Science and Research

doc. MUDr. Beatrice Mohelníková Duchoňová, Ph.D.

external expert in Oncology

Department of oncology University Hospital Olomouc

prof. Ing. Josef Rosenberg, DrSc.

Member of Biomedical Center Supervisory Board

West Bohemian University

The Selection Committee proceeded in accordance with the Code for selection procedure at Charles University, Project Grant Agreement, the European Charter for Researchers and the Code of Conduct for the Recruitment of Researchers, and properly and honestly evaluated all CVs submitted to the selection procedure.

On the basis of the submitted documents, the Selection Committee decided that, due to failure to meet the formal requirements of the application and failure to meet the requirements stated in the advertisement, 7 candidates will be excluded from further participation in the selection procedure, namely: [REDACTED]

The Selection Committee decided to invite 2 candidates for an interview [REDACTED] and Mr. Kari Hemminki), which will take place on 16th October 2019 at the Biomedical Center in Pilsen.

The Selection Committee also decided that the ballot for the selection procedure would be prepared in English for greater transparency and possibility to give candidates feedback on the outcome of the oral interview.

The interview invitation included the evaluation criteria, the interview schedule, and the full project Grant Agreement text was sent to the candidates as an attachment so that they could get a closer look at the content of the project.

Candidates were invited for the personal job interview and negotiations about the ERA Chair position by email sent on 18th September 2019. The confirmation of the attendance should have been sent no later than 30th September 2019 by emailing on personalista@lfp.cuni.cz. Both candidates confirmed their availability to participate on 16th October 2019. Also a delegate of the European Committee was invited to join.

In the meantime there was time for candidate's questions on the position after reading the project proposal, sending them at latest by 07th October 2019. In accordance with equal opportunities policy, we shared the received questions and answers with other applicants.

On 9th October 2019 Mr. Michele Tavecchio asked for the possibility of a Skype interview. After the committee consideration it was accepted as a possible solution which is following the principles mentioned in the project proposal. So the Skype address and time schedule were sent to him.

5 Personal job interview

The interview was held on 16th October 2019 in BC in Pilsen. The programme was set as following:

| | |
|---------------|--|
| 10,00 – 10,15 | arrival of all Selection Committee members |
| 10,15 – 10,25 | the selection procedure introduction |
| 10,25 – 10,30 | Skype connection checking |
| 10,30 – 11,30 | Skype interview with Mr. [REDACTED] |
| 11,30 – 12,30 | Personal interview with Mr. Kari Hemminki |
| 12,30 – 13,00 | Committee session, conclusion |

Each interview consisted of these points:

- 1) Informal conversation with committee members
- 2) Question and answer session
- 3) Project explanation
- 4) Candidate's plan and strategy for fulfilling the project role

Each candidate was during the interview informed about:

- the content of the project
- job description
- working conditions and labour terms in the Czech Republic
- the European charter for researchers

The evaluation criteria for each candidate were the same, as follows:

- i) managerial experience;
- ii) international collaboration ;
- iii) leadership of scientific projects;
- iv) scientometric indicators;
- v) experience with research group or research programs leadership;
- vi) experience with doctoral and post-doctoral mentoring
- vii) current scientific activity in genomic cancer research and competence for DNA sequencing and related bioinformatics

The Selection Committee proceeded in accordance with the Code for selection procedure at Charles University, Project Grant Agreement, the European Charter for Researchers and the Code of Conduct for the Recruitment of Researchers. Members of the committee voted in writing, secretly and anonymously through ballots.

On the basis of the interviews with candidates, documents sent by each candidate and the result of secret vote of committee members, the selection committee decided on the order of candidates as follows:

[REDACTED] – 2nd place
Kari Hemminki – 1st place

Therefore, the Selection Committee recommended to the Dean of the Faculty of Medicine in Pilsen, Charles University to accept Dr. Kari Hemminki for the ERA Chair Holder position.

6 Decision

In accordance with the recommendation of the Selection Committee, the Dean of the Faculty of Medicine in Pilsen, Charles University, prof. MUDr. Jindrich Finek, Ph.D. decided, in accordance with the provisions of Article 4 (1) the Code for selection procedure at Charles University, to accept the applicant, dr. Kari Hemminki.

████████████████████ was informed by email about the results of the selection procedure. According to the principle of transparency, the feedback and the reasons of his rejection were sent him (including copies of ballots).

On 16th December 2019 the employment contract was signed by the Dean and dr. Kari Hemminki. His employment has started since 1st January 2020.

7 Annex

List of Annexes

- 1) Job Advertisement
- 2) Publication channels
- 3) Selection Committee – Letter of appointment
- 4) Candidates's CV
- 5) Selection meeting minutes
- 6) Ballot papers
- 7) Decision of the Dean of the Faculty of medicine in Pilsen, Charles university

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 856620.

Job Advertisement for ERA Chair Holder at the Biomedical Center, Faculty of Medicine in Pilsen, Charles University, Czech Republic

The Faculty of Medicine in Pilsen, Charles University, Czech Republic, calls for applications for the position of ERA Chair to establish and lead the Laboratory of Translational Cancer Genomics at its Biomedical Center. The ERA Chair position is open within the project Chaperon, WIDESPREAD-04-2019.

We are looking for a candidate for the **ERA Chair holder** from EU or non-EU countries with the capability to compete at the level of ERC Advanced Grants or similar.

EXPECTED PROFILE:

- Expertise in tumor biology or translational cancer research:
 - Significant publications as main author / corresponding author / team leader in major international peer-reviewed multidisciplinary/respective field scientific journals
 - Record of invited talks at well-established international conferences
- PhD (in physics, chemistry, biology or medicine) or equivalent
- Fluency in written and spoken English, excellent communication skills
- Fulfilling the conditions specified in the European Framework for Research Careers for Established researcher at the level of R3 or R4
- Active researcher with significant research achievements in the last 10 years in patient-oriented translational research in cancer genetics
 - International track record of the achievements in tumor-biology-related publications
 - Track record of innovative research with implications to the clinical sphere
- An exceptional leader with managerial skills, originality and significance of the research contributions
 - Track record of national and international expert functions
 - Proven record in securing research funding and experience in managing and leading research group
 - Proven creative approach towards interdisciplinary research, leadership and mentoring skills, and the potential to cooperate with other research groups

JOB DESCRIPTION, ROLES AND RESPONSIBILITIES:

- Form and lead his/her own research team and establish the Laboratory of Translational Cancer Genomics, working on a full-time position at the Biomedical Center of the Faculty of Medicine in Pilsen, Charles University, Czech Republic
- Participate in the development of the scientific community throughout the whole Charles University, in particular by wide support of postdocs and PhD students
- Bring and transfer experience in competing for, coordinating and implementing international grants, thus contributing to increase the competitiveness of the institution
- Participate in the development of the institution's scientific quality as a member of the Commission for scientific support of the Charles University
- Optimize the processes in the scientific career development strategy
- Coordinate cancer-oriented research teams of the Biomedical Center

BENEFITS:

- **Full time position contract** (54 months supported by the ERA Chairs grant)

-
- **Attractive internationally competitive salary** and remuneration package up to €110,000 per year
 - **Opportunity** to establish a research team (up to 7 FTE) based on his/her scientific aims
 - **Autonomy and independence**, coordination of cancer-oriented research at the Biomedical Center
 - **Full access to the research infrastructure of the Biomedical Center**

Applications including detailed curriculum vitae, brief description of current research, accomplishments, representative publications, and the names of three references should be sent directly to the Project Coordinator on email address: personalista@lfp.cuni.cz

till **05.09.2019**

Charles University is committed to employment equality (esp. European Charter for Researchers and the Code of Conduct for the Recruitment of Researchers) and welcomes applications from all qualified candidates fulfilling requirements specified in this announcement.

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 856620".

 --

The Faculty of Medicine in Pilsen, Charles University, Czech Republic, calls for applications for the position of ERA Chair to establish and lead the Laboratory of Translational Cancer Genomics at its Biomedical Center. The ERA Chair position is open within the project Chaperon, WIDESPREAD-04-2019.

We are looking for a candidate for the ERA Chair holder from EU or non-EU countries with the capability to compete at the level of ERC Advanced Grants or similar.

EXPECTED PROFILE:

- Expertise in tumor biology or translational cancer research;
- Significant publications as main author / corresponding author / team leader in major international peer-reviewed multidisciplinary/respective field scientific journals
- Record of invited talks at well-established international conferences
- PhD (in physics, chemistry, biology or medicine) or equivalent
- Fluency in written and spoken English, excellent communication skills
- Fulfilling the conditions specified in the European Framework for Research Careers for Established researcher at the level of R3 or R4
- Active researcher with significant research achievements in the last 10 years in patient-oriented translational research in cancer genetics
- International track record of the achievements in tumor-biology-related publications
- Track record of innovative research with implications to the clinical sphere
- An exceptional leader with managerial skills, originality and significance of the research contributions
- Track record of national and international expert functions
- Proven record in securing research funding and experience in managing and leading research group
- Proven creative approach towards interdisciplinary research, leadership and mentoring skills, and the potential to cooperate with other research
